## CHANGES NEEDED IN THE POWER SYSTEM for the Energy Transition

### International Symposium hosted by the Nordic Regional Council of CIGRE (NRCC) in Trondheim, Norway on May 12–15, 2025

**Participating CIGRE Study Committees:** Transmission and distribution equipment, Insulated cables, Overhead lines, Substations and electrical installations, DC systems and power electronics, Protection and automation, Power system operation and control, Power system sustainability and environmental performance, Power system technical performance, Active distribution systems and distributed energy resources.

#### SYMPOSIUM THEME

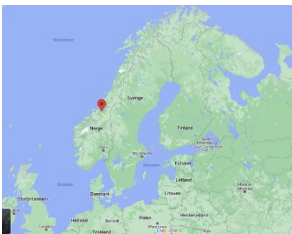

The CIGRE NRCC 2025 symposium in Trondheim will be on the theme of Changes Needed in The Power System - for the Energy Transition. The theme is divided into two topic streams: 1: Integration of renewable energy resources to the grid and 2: Technologies supporting the power grid for energy transition to carbon neutral energy production.

More detailed information on topics is available on [CIGRE > CIGRE Symposia > Trondheim Symposium 2025](#)

#### LOCATION

Trondheim is the 3rd largest city of Norway. The university NTNU together with the SINTEF research group leads the world in many technology-based research areas. Nidaros Cathedral is one of Trondheim's most famous tourist attractions and is worth a visit.

The venue for the Symposium will be Clarion Hotel Trondheim. 19 meeting rooms – with a capacity of 1800 participants for the largest one – make Clarion Hotel one of Scandinavia's largest convention centers.

#### PROGRAM

The technical program will open with Tutorials and Workshops on Monday May 12 followed by the Welcome reception on Monday evening. The symposium has two full days on Tuesday and Wednesday, May 13 and 14 with parallel sessions. Thursday May 15 will offer a technical tour. Individual Study Committee and Working Group meetings will take place from May 10 to May 16.

Information on the program is available on <https://cigrenrccsymposium2025.com/>.

#### PARTICIPANTS

We foresee between 500 to 800 persons attending the Symposium. Many participants will come from the Nordic region and there will be many others from all over the globe.

#### SPONSOR OPPORTUNITIES

There will be four levels of sponsoring with different costs and different benefits (see the next page). Please note that level A and B are limited to only one and two sponsors, meaning it is important to sign up first.

## Symposium sponsorship opportunities details:

### A. Main Sponsor: Platinum level €20,000, four free delegates

Including the sponsoring of the Welcome reception and the Symposium dinner - the leading social events of the week
